

Use the heart printout as a prompt to get your pupils thinking about what they love about their voice!

Using one half of the heart ask them to draw, paint, or write something about themselves that they like.

*“I love helping my friends and family”*

*“I love that I stay positive even when things are difficult”*

Ask them to write their name on the other half of the heart and swap it with someone in the class, they must then write one thing that they like about that person.

*“I like that you are really good at maths”*

*“I like that you are so good at telling jokes”*
