

ACTIVITY: MAKE YOUR VOICE COUNT

How will your pupils make their voice count?

Ask them to fill in their speech bubble with the positive ways they can make their voice count. They could use words, a story or even drawings!

For example – speaking up for others, spreading positivity, advocating for change, being an upstander, talking about mental health.

Once they have completed their speech bubbles, use the activity as an opportunity to have a class discussion:

- 1) Ask your pupils to explain how they want to make their voice count and why
- 2) Discuss ways that they can use their voice to create a happy and safe environment in school
- 3) Talk to them about why using their voice and making it count is an important and positive thing to do.

Share your classes creations with the tootoot team on twitter using #pupilvoiceweek and tagging @tootootofficial!
